The project met with unanimous favor, and Messrs. J. F. Maguire, B. M. Short and C. C. Robinson were appointed to get up a party of seventy five or more to start on the journey. Several quite favorable prospects have been found in the mountains in the immediate vicinity of Ogden, and the belief prevails that rich claims are yet uncovered. W. A. Hunt is the proprietor of several claims in the Wasatch range and exhibited specimens from the Alpine company's veins at North Fork, in Ogden canon. The ore showed rich deposits of silver, lead and gold. A tunnel is in twenty feet, and Mr. Hunt is of the opinion if a stock company can be formed with sufficient capital and a shaft put down six hundred feet an immensely rich body of ore can be found. The mine is located on a high ridge and can be mined without the dred feet an immensely rich body of ore can be found. The mine is located on a high ridge and can be mined without the aid of powder. The specimens show that the ore can be easily smelted.

Samples of ore from other places were also exhibited. The committee will set to work this morning carnest to get the party

work this morning in earnest to get the party formulated and a start will be made in formulated and a start will be made in a few days. The interested parties are quite enthusiasti cover the matter and it is probable that the gentlemen who go on the trip will not leave a stone unturned before leaving the heaps of rocks on Ogden's bor-

narrow escape from death. The lady and her brother obtained a horse and buggy from Cory Brothers and were out for a drive. Mr. Leek had an errand to do at the Commercial office and stopped there for a few moments. After be had performed his duty he returned to the buggy, and was in the act of getting into it when the animal became frightened and started to run. Mr. Leek endeavored to hold on to the rains but he was thrown to the and while turning the corner the buggy was upset and the lady was thrown violently to the payement. She was picked up and carried to the Reed hotel pharmacy where she was given opiates to ease the pain she endured, and taken to her home between Thirtieth and Thirty-first streets on Adams avenue. Her injuries were pronounced by the doctors as not being of a contract of the corner of the corne ture. The horse was captured before the vehicle was badly demolished.

Police Headquarters Only one arrest was made in police quarters yesterday, namely, M. I. Durkin, a plain drunk. His case will come up for

disposal this morning. His case would have been heard yesterday, but upon investigation it is thought probable that the fellow was implicated in the swindling of Banker Whitmore, of Provo, a few days ago. He has the appearances of being a genuine crook and it is likely there will be some spicy developments in control of the urinary organs. It is easily taken and restores healthy vitality to the organs it is intended to operate upon with assured success. S. J. McCommck, be some spicy developments in court this

Stock Exchange. New York, April 23.—The stock market to-day, especially in the formoon, was extremely active and buoyant, with a quieter state of affairs in the atternoon and some concessions from the high prices of the early trading. The western contingent was again prominent in buying, and forced their favorites once more to the leadership of the market. Heavy realizations on advances, however, kept the upward movement for the day within comparatively narrow limits. The market closed active and firm, close to the best prices.
